Right Food Makes Fine Boys.

theory.

The wife of a prominent legislator in Kentucky says: "A woman of my nomination was in a badly rundown condition at three months of age the child was a mile of humanity pitiful to look upon, with no more brain development than a nonkey.

About the time I speak of when the filld was three months old the mother segan feeding him Grape-Nuts.

"In ten days it was plain that a sharike was taking place, and in a few weeks the hoy became rosy, healthy and counded out.

"He is now five years old, and his food this entire time has been Grape-Nuts and cream. He seldom ever takes any other kind of food.

"It is a spleadid illustration of the announcement of the proposition of the constraint of the sound in the proposition of the constraint of the sound in the law sound in the law sound in the sound in the law sound in the law sound in the law sound in the law sound in the sound in the law sound in the sound in

other kind of food.

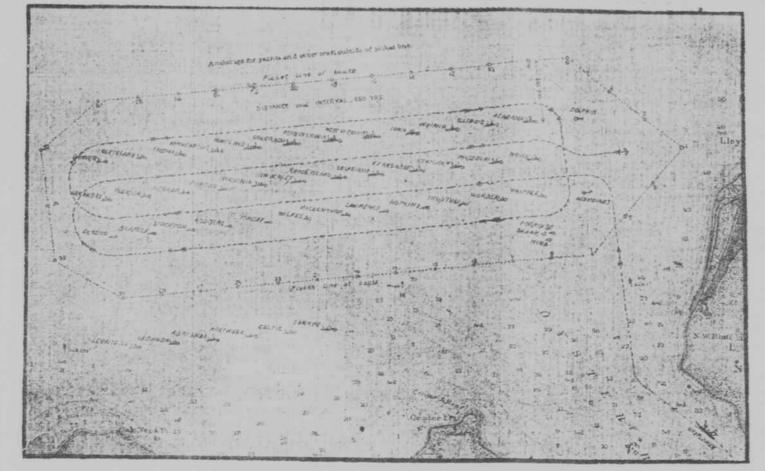

"It is a spleadid illustration of the fact that selected food can produce results, for this boy is perfectly formed, has a heautiful body and arms and legs of a young athlete, while his head and heal development appears perfect, and he is as bright and intelligent as can be.

"I cannot comprehend a better films, and of the truth of the claim made for Grage-Nuis, that it is a brain and hody builder." Name hiven by Postum though builder. Name hiven by Postum (Co., 3sttle Creek, Mich.

"South the two the truth of the claim made for Grage-Nuis, that it is a brain and hody builder." Name hiven by Postum (Co., 3sttle Creek, Mich.

"South the two the truth of the splender 2.—The amounteement is responsed here of the approaching marriage of the proposed him to the approaching marriage of the proposed him to the proposed him to the approaching marriage of the proposed him to t
